

Consultation begins on Health and Wellbeing Strategy

The draft Cambridgeshire and Peterborough Joint Health and Wellbeing Strategy has been launched for consultation on our [Consult Cambs website](#). The strategy builds on the health and wellbeing priorities for Cambridgeshire and Peterborough identified through the Joint Strategic Needs Assessments available on [Cambridgeshire Insight JSNA](#) and the key findings of the Cambridgeshire and Peterborough HealthWatch 'What would you do?' report available on the [Healthwatch website \(opens in PDF format\)](#).

The draft Joint Health and Wellbeing Strategy has four priorities:

- Places that support health and wellbeing
- Helping children achieve the best start in life
- Staying healthy throughout life
- Good quality health and social care
